Protected Parks, Unprotected Wildlife?

Name: Nudara L
student ID: 34976272
DV2 sketch TOPIC B
studio: Tuesday 12-2pm

Australia's
30% land protected | 891 national parks | 700 marine parks | 11% animal species | threatened animal sightings within 100km of park

(1) Protected Land (2) Parks (3) Wildlife (4) Threatened animals (5) What it means

About this story

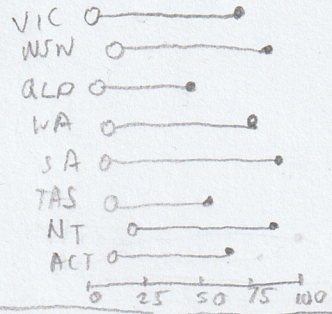

1. How much land is protected?

KEY FINDING

WHY IT MATTERS

Protected vs. unprotected land (%)

KEY FINDING

WHY IT MATTERS

Protection by natural region

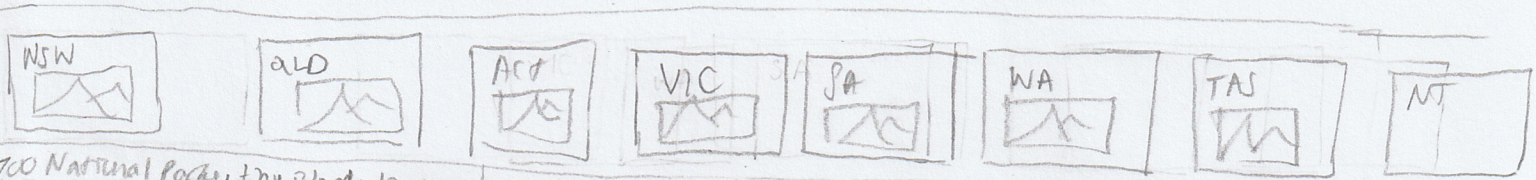

KEY FINDING

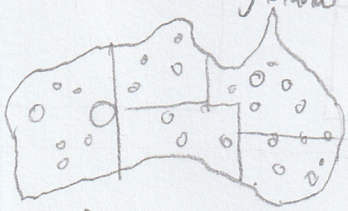

What kind of protection?
Half of land Indigenous Protected

WHY IT MATTERS

2. Where are the national parks & which parks hold the most wildlife?

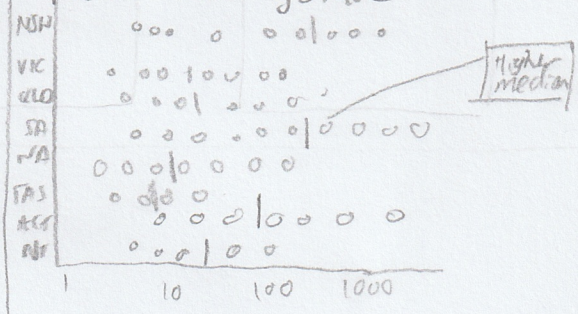

700 National Parks, tiny islands to giants

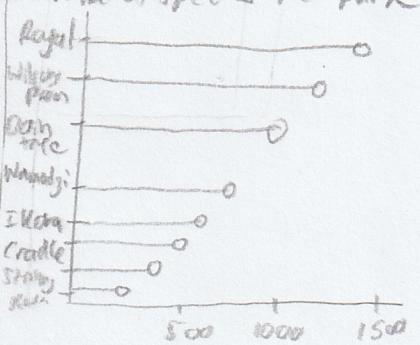

Number of species
- 1-10
- 11-50
- 51-100
- 100+

Year Park Area (log scale)
1900 2023 2025

Species count by state

Number of species per park

3. Are threatened animals protected?

Threat level by species type

Birds	12	18	24	31	27
Mammals	8	12	19	26	22
Reptiles	6	9	14	20	18
Fish	4	7	10	15	13

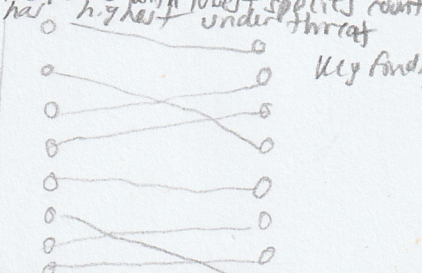

Number of species
- 0
- 1-9
- 10-50
- 50+

Choose animal ∨

The park with lowest species count under threat has highest
